Hi Mike. We will pass the second question to IEPA. They are working on the report and we've requested a copy when it is done. They are in the best position to respond as to the specifics of their inspection and how NRDC can request a copy.

Subject: Following up on Centrevill

Thanks again for following up with our Centreville attorney team for an update on a possible "regional" approach to the flooding & sewerage issues and enforcement progress towards bring relief asap for the residents. We have a few questions for you based on last Monday's discussion, as well as subsequent developments:

(2) **IEPA field visit.** IEPA had staff in the field (Wayne Caughman) to investigate the water issues on Wednesday, August 5, with representatives from Centreville and the County. Can USEPA/IEPA provide us with an update on which local/county reps participated, what was found on this visit, and whether any action steps

will be taken as a result of it? Are there any documents related to the visit, findings and/or action steps that are shareable with the public, and if so can the agencies send them to us or should we submit a FOIA request?

Thanks so much,
Meleah
